EDUCATION

- **Vardhaman College of Engineering, Hyderabad**   **2016-2020**
  (*Bachelor's in Computer Science and Engineering*)
  CGPA – **8.7***
- **Sri Gayatri Junior college, Hayathnagar**   **2014-2016**
  (*Intermediate in M.P.C*)
  Percentage – **96.4%**
- **S.S.C, Brillant Grammar High School, Hyderabad.**   **2013-2014**
  GPA – **8.3**

EXPERIENCE

- **OpenText, Hyd - Software Developer Intern   Feb 2020 to Present**
  Utilizing the in-depth knowledge of functional and technical experience
  in Java and other leading-edge products and technology in conjunction
  with industry and use selinium to test various projects.

- **IEEE EPICS, Hyd - Web Developer Intern   Oct' 18 – Jun 19**
  Developed a Web Application for automating college projects process
  In, PHP, AJAX, Jquery, and Web Technologies.(Followed
  product development lifecycle)

PROJECTS

- **Student Academic Project Management**
  It is an automation application which is useful for generating the teams among
  the students. In this a specific space is used for submitting their abstracts and
  other project details by the specified teams. It can also serve   as a
  communication channel between student and faculty by the chat box is been
  integrated.
  Project link : http://vardhaman-spma.ga

- **Travels website**
  This is one of the interesting **travels website** with more features than present
  where we can book many type of vechicle for later ,book any transportation
  tickets,With interesting ml model for analyze you interest and recommends
  it.
  Project link : https://github.com/saikiranreddygangidi/gjrtravels

- **Animation dancing object**
  This is project uses java applets concepts animation of object
  Project link : github.com/saikiranreddygangidi/animation-using-java

- **People clustering:**
  This complete application is developed in python Which visualize people
  location in map using different datasets , it can be further used by different
  application like transport services applications, hotel marketing applications,
  We can analyze people interests such that we can action according to it.

- **CodeBot:**
  This is **Django** project which display code of program by just searching with
  program name.
  Project link : https://github.com/saikiranreddygangidi/codebot

CERTIFICATIONS

- **Infosys** certified software programmer
- certified in architecture of google Kubernetes Engine by **cousera**
- Certified in Java , C, DS, and, Python
- Certified in mobile app development by **IBM**
- **CodeVIta** Season 8 (Rank : 3152 out of 55,654)

SKILLS

Programming

- C, Java, Python, PHP,JavaScript,
- Basic golang
- Data Structures, Algorithms

Database

- MySQL, Mongodb

Web Development -

- HTML, CSS, JS, AJAX, PHP,
- Angular Js, Node Js, Django,ReactJS

Kubernetes,Docker,Gke

PARTICIPATIONS

- Participated in **Telangana Hackathon** to develop a web portal for GHMC garbage maintenance and secured certificate for Achievement.
- Participated in Big Data Hackathon, ICT Academy Contest.
- Participated in mobile application development workshop.
- Participated in many coding contest under hackerrank, codechef, CETA.
